

Flanders PrePleat 40 Stan. Capacity MERV 8 Pleat vs. Koch Multi-Pleat

Flanders
(non-electret)
MERV 8

Koch
(non-electret)
MERV 7

Media:

100% Non-woven synthetic media manufactured from recycled material

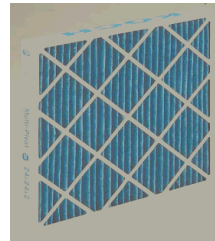

Cotton / Poly Blend

Flanders PrePleat 40

Synthetic fibers do not promote microbial growth as do cotton/poly media blends and contain no toxic dyes

Koch Multi-Pleat

Proprietary media matrix consisting of 4 layers in two deniers and 2 fiber geometries

Hydrophobic (non-moisture absorbing)

"Cotton will absorb moisture"

Frame:

Moisture-resistant clay coated frame made with recycled material
